

NEW HOSPIVAC

RESTYLED

ON CASTORS

The most successful CA-MI surgical suction unit has a new shape. A new device with improved features aiming to provide medical staff with the most reliable tools for aspiration.

A professional surgical suction unit indicated for any surgical application guaranteeing the best performance on the market.

Thanks to its state-of-the-art features it finds application in any operating theatres and general surgery.

The device is suitable for nasal, oral and endotracheal aspiration of bodily fluids (mucus or catarrh), tissues or bones from adults and children.

MAIN FEATURES

Digital Experience

The newly designed digital interface assist the operator with a clear visibility and an accurate regulation of settings.

Smart Design

The slim design, the convenient handle, and the 4 high-quality antistatic castors make the device easy to maneuver and store. On the back of the unit a large compartment is available to store many accessories.

Non-stop operation

In order to guarantee the best performance, engine can work without interruption 24/24h.

Change-over system

Allows operator to switch to the next jar without interrupting suction.

Safety protection

3 protection systems against internal reflux.

Multi-Purpose Rail System

Flexible rail that allows the rapid change of containers.

Best Seller configuration

NEW HOSPIVAC Restyled +2x 2000 mL reusable jar in Makrolon Polycarbonate (121°C)

The warranty lapses immediately if the unit is used without all the required accessories or with non-original CA-MI accessories.
